HTML MCQ

Take HTML MCQ Test to Test Your Knowledge

Html, or **Hyper Text Markup Language**, is a markup language that describes the content of website pages and documents. In HTML, content is marked up with tags, which are places within the text where you can enter data into the pages. these tags are used for styling text and for managing elements such as text and images. HTML formatting tells your browser, that how to view and display web pages, or any other information on the Website. The web pages you see today are built in HTML language. It has a uniform syntax across all browsers, allowing the same thing to be displayed the same way in all types of browsers.

Finally, Practice here the best **HTML MCQ Questions**, that check your basic knowledge of HTML Programming Language. This **HTML MCQ Test** Contains 50+ Multiple Choice Questions, which are very popular & asked various times in Exams and Job Interviews. apart from this, you can also download here the **HTML MCQ PDF**, completely free.
