Irrigation Engineering MCQ Test

Take Irrigation Engineering MCQ Tes to Test Your Knowledge

Practice here the best **Irrigation Engineering MCQ Question** that checks your basic knowledge of Irrigation Engineering. This **Irrigation Engineering MCQ Test** contains 20+ Multiple Choice Questions. You have to select the right answer to the question. apart from this, you can also download here **Irrigation Engineering MCQ PDF**, completely free.

Q1. What are the canals derived from icy rivers known as?

- A. Ridge canals
- **B. Perennial canals**
- C. Permanent canals
- D. Inundation canals

Q2. What is the ratio of sinuosity of a mentor?

- **A. Curved length and the straight distance**
- B. Meander length and the width of meander
- C. Meander length and half width of the river
- D. None of the above

Q3. Irrigation canals are usually connected with

- **A. Ridge line**
- B. Valley line
- C. Contour line
- D. Straight line

Q4. Does natural sub-irrigation come under Sub-surface irrigation?

- **A. Yes**
- B. No

Q5. Which of the following is another name for Flood Irrigation?

- A. Lift Irrigation
- B. Flow Irrigation
- C. Surface Irrigation
- **D. Uncontrolled Irrigation**

Q6. Which type of irrigation system is practised on a small scale in India?

- A. Lift Irrigation
- B. Flood Irrigation
- C. Natural sub-irrigation
- **D. Artificial sub-irrigation**

Q7. is the other name of the perennial irrigation system.

- A. Flood Irrigation
- B. Direct Irrigation
- **C. Controlled Irrigation**
- D. Storage Irrigation

Q8. The most irrigation schemes fall under in India.

- A. Lift Irrigation
- **B. Tank Irrigation**
- C. Combined System
- D. River Canal Irrigation

Q9. The land property gets submerged in what type of irrigation system?

- A. Flow Irrigation
- B. Combined System
- **C. Storage Irrigation**
- D. Perennial Irrigation

Q10. Which kind of irrigation system needs mechanical means to supply water for irrigation?

- **A. Lift Irrigation**
- B. Storage Irrigation
- C. Combined System
- D. Perennial Irrigation

Q11. Hydroelectric power can be generated in

- A. Lift Irrigation
- B. Flood Irrigation
- **C. Storage Irrigation**
- D. Perennial Irrigation

Q12. Which of the following irrigation method uses artificial rain to irrigate the land?

- A. Furrow Method
- B. Drip Irrigation Method
- C. Border Irrigation Method
- **D. Sprinkler Irrigation Method**

Q13. The water takes a circuitous route to irrigate the land in

- A. Free Flooding
- **B. Zigzag Flooding**
- C. Basin Flooding
- D. Check Flooding

Q14. Is the drip irrigation method a type of lift irrigation system?

- **A. Yes**
- B. No

Q15. What does the optimum utilization of irrigation water mean?

- A. Getting less yield with the least water content
- B. Getting less yield with maximum water content
- **C. Getting maximum yield with any amount of water**
- D. Getting maximum yield with the maximum amount of water available

Q16. The Potential Evapotranspiration critically depends on

- A. Vegetation
- B. Types of Soils
- C. Types of Crop
- **D. Climatological Factors**

Q17. Which of the following method is widely used in India for the computation of consumptive use?

- **A. Penman's equation**
- B. Tanks and lysimeter
- C. Blaney-Criddle equation
- D. None of the above

Q18. Which of the following canal acts as an irrigation canal as well as a feeder canal?

- **A. Carrier canal**
- B. Feeder canal
- C. Permanent canal
- D. Inundation canal

Q19. does not need cross drainage structures.

- A. Contour Canal
- B. Field Channel
- **C. Side Slope Canal**
- D. Watershed Canal

Q20. Which of the following costs are reduced with the help of lining a canal?

- A. Construction Costs
- **B. A.R and M.O Costs**
- C. Construction Costs
- D. Irrigation Water Costs
